REQUEST FOR PROPOSALS

154th Street Vaulted Sidewalk Repairs

CITY OF HARVEY

This Request for Proposals (“RFP”) is being issued by the City of Harvey (“City”), acting pursuant to the City’s charter. This RFP is being issued as part of the City’s Emergency Procurement procedure to repair unsafe sidewalk conditions for the City of Harvey. The RFP is for eliminating two vaulted sidewalk areas in downtown Harvey at 175th E. 154th Street and 190 E. 154th Street (see Project Location Map on page 2). The vaulted sidewalk was exposed in recent sidewalk construction. Once discovered, the areas were left undisturbed. Surface openings at both locations allow visual inspection of the void and basement access.

The scope of work shall include the following:

- Remove existing broken sidewalks
- Construct a two-brick thick wall at the basement access opening after removal of wood framing
- Close any additional basement wall openings as necessary to contain gravel backfill
- Backfill void with suitable subgrade gravel material
- Install 4” concrete sidewalk
- At 175th E 154th ST, install single concrete step at each access door

Contractors are encouraged to visit the locations and assess the approximate quantities for the completion of the work. Proposed sidewalk shall match the newly constructed surrounding sidewalk. The City will remove barrier blocks per coordination with selected contractor. The contract will be awarded as a Lump Sum Project that includes both locations.

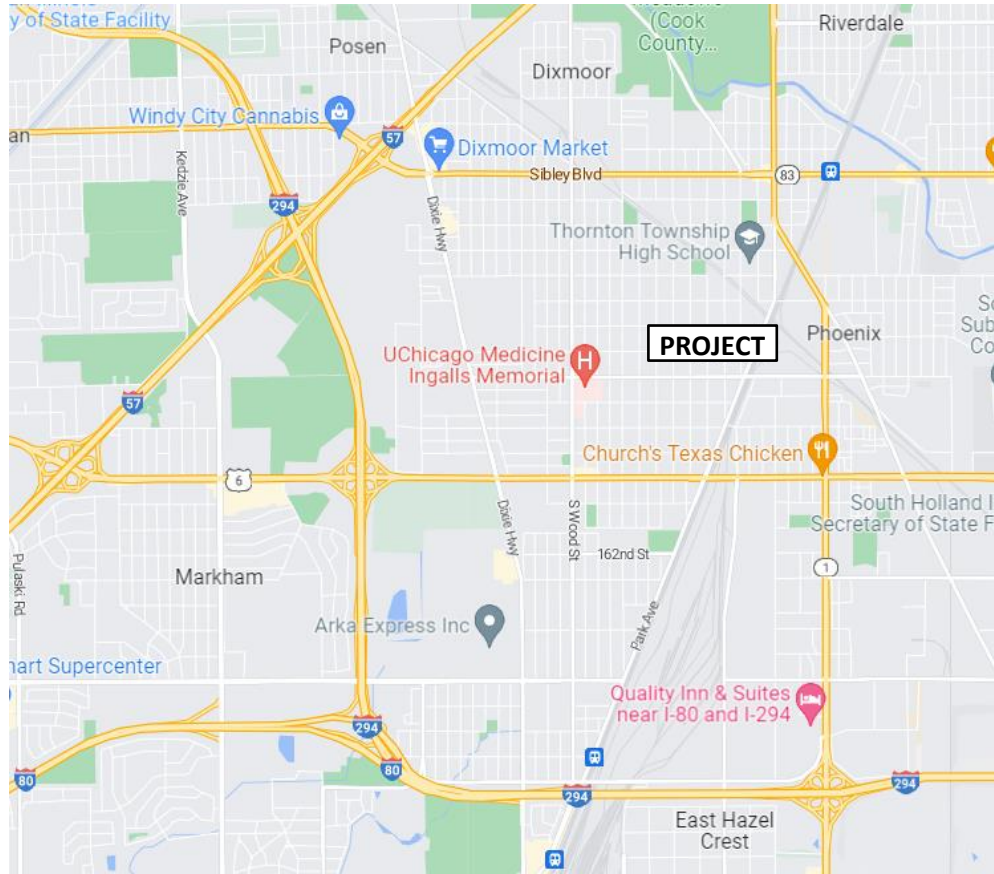

Bid Requirements:

Contractors are to submit a proposal that includes the following:

1. Total fee for completing the Scope of Work
2. A list of items that may potentially be needed to perform the work (i.e. water removal)
3. Estimated time to start and complete the project

The City will accept proposals via email at procurement@cityofharveyil.gov until Friday, April 14, 2023 by 10:00 a.m. CST.
